Covert Communications kit for Marconi H4855 Personal Role Radio

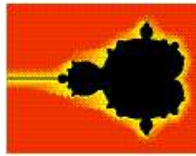

Developed specifically for the internationally acclaimed Marconi_Selenia H4855 Personal Role Radio, and utilizing PRR's own easily concealable wireless PTT Switch, this high - quality covert communications kit includes everything the Protective Security or Covert Surveillance operator needs to convert a standard 'Green Role' PRR transceiver into a fully covert, wearable ComSet. Users have also reported significant increases in PRR's effective transmission range, especially when used in urban areas.

Features

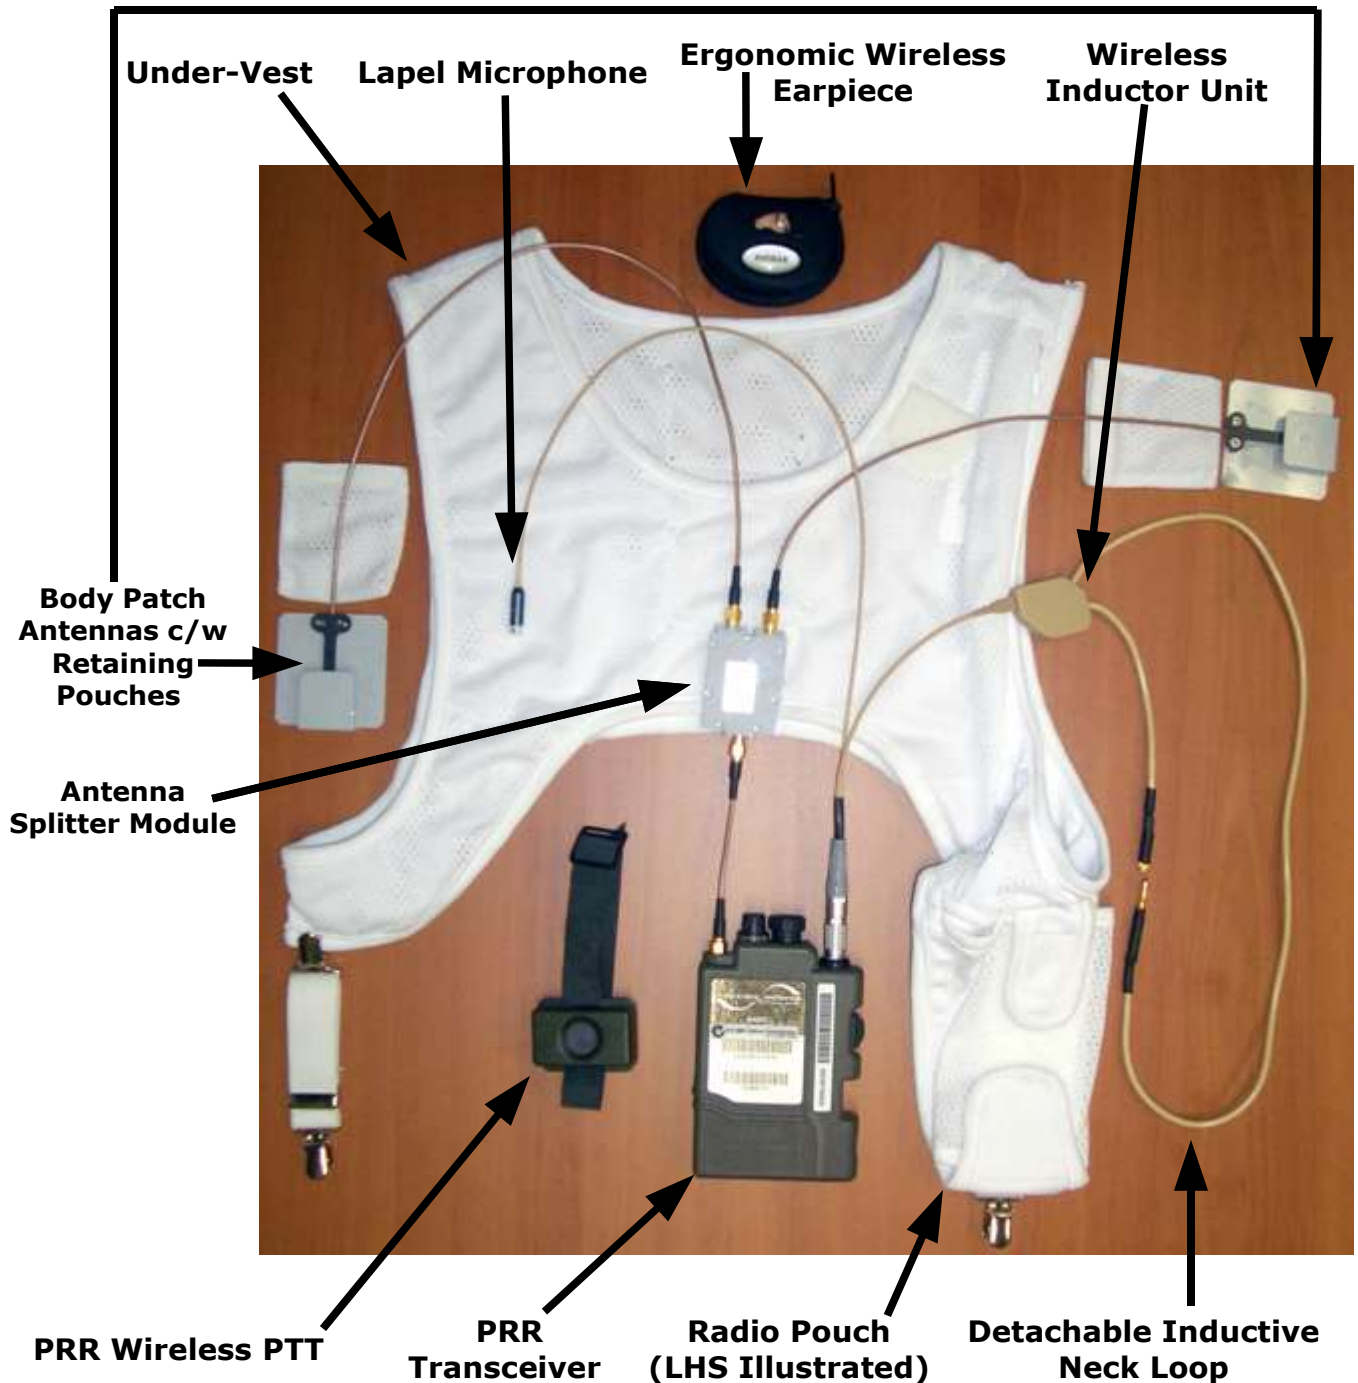

1. Two - Wire Cable ComSet available in either Beige or Grey
2. Miniature Lapel Microphone incorporates 2-position (Omni/Directional) switch
3. Ergonomic Inductive Earpiece incorporating squelch circuit & maintenance kit
4. Fully Detachable Inductive Neckloop available in either Beige or Black
5. Dual - Patch Body Antenna greatly extends PRR's effective transmission range
6. Antenna kit comprises 3dB splitter, two patch antennas, inter-connecting cables & concealed retaining pouches
7. Itemised spares kit also available
8. Covert Under-Vest available in 3 sizes (M, L & XL)
9. Option of either LHS or RHS Radio Pouch
10. Available in 2 Colors (White & Black)
11. Incorporates specially concealed full-length zippers

Covert PRR kit
